

# Bindomatic 101 DFS

## Professional results come automatically

Does your company print and distribute large quantities of in-house publications to clients and other interested parties? Then making a consistent and professional impression is all the more important. The Bindomatic 101 DFS makes light work of it. Thanks to highly advanced automatic functions, binding 50 soft cover documents can be achieved without any real effort in far less than five minutes.

Add to that the flexibility of also binding the Bindomatic range of exclusive hard covers, called Ambassador series, and the capabilities of this solution is un-rivalled in its class.

The result? You would be forgiven for thinking your documents had come straight out off a print shop.

A professional impression.

# Quick, easy, and effective

The automatic features of the Bindomatic 101 DFS are not just convenient, they are something you can rely on – every time. For example, paper jogging, heating and cooling processes are all handled automatically. When you are in a hurry, it is nice to be able to flick through a document straight after binding, without having to wait for the cooling period needed with manually operated binders.

## Creating a professional impression is easy!

① Place the set of paper in the automatic cover size selector. The display will indicate a suitable spine width.

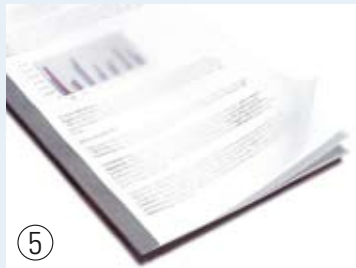

② Load the set of paper in your chosen Bindomatic cover.

③ Load one or several documents in the document binder when the indicator light is green.

④ Remove the ready-bound document from the tray.

⑤ Congratulations – you have produced a professionally bound document in an instant!
