## Professional results make a difference

The digital print markets search for a perfect bound, on-line finishing solution which keeps up with the rated speed of the printer, has come to an end.

The versatility of the Bindomatic 301 DFS offers that and more. With its ease of operation, proven reliability and outstanding binding quality, it is the given choice for the digital Black&White and Colour community - where a professional impression is a vital ingredient to successful business.

**BINDOMATIC®**  
A professional impression.

# Workflow versatility at the touch of a button

The patented, interactive design of the Bindomatic 301 DFS on-line finishing solution, consistently ensures the highest possible binding strength and quality. Combined with off-line, "bind-while-print" capability, the Bindomatic 301 DFS offers unparalleled flexibility in finishing, allowing for improved and further usage of existing customer printer/press and copy equipment.

A reduction of manual labour and job turnaround time, elimination of waste and operator induced errors are further arguments to qualify the Bindomatic 301 DFS as the obvious solution to all businesses with medium to high volume demand for professional finishing.

## Creating a professional impression is easy!

Smart, neat and timeless – Bindomatic covers keep papers together, are durable and provide a professional impression in the easiest way imaginable.

Bindomatic covers are available in a wide variety of standard styles that all come with a transparent front side and paper back. Our speciality, customised covers, are designed to your specifications and will not only reflect the corporate profile but create a uniform impression and appearance to all your bound documents.

The Bindomatic 301 DFS is compatible with a large number of digital B/W and colour printers on the market – for the most recent and correctly updated info please contact your closest Bindomatic representative as listed at [www.bindomatic.com](http://www.bindomatic.com)
