

### FEATURES & BENEFITS

- Automatic bottom vacuum feed with register guide
- Dynamic touch screen control for easy operation
- Automatically crease, number, perforate, and score all in one affordable package
- Automated distance recognition – allows auto setups for your most common creases and corresponding folds
- Includes reliable pneumatic, Gothic wheel reverse numbering heads – with 7 digits, 4 drop zeros and 4 repeats
- Each numbering head can be programmed individually for multiple numbering
- Complete perforating assembly included, with linear perf capabilities up to 4 perfs per sheet – Optional micro-perf and score wheel assemblies are available
- includes micro-laterally adjustable feed rails and sheet counter (batch and total counting)
- Patented self inking disposable ink cartridges
- Accommodates inline folders (see COUNT KF-200)
- Requires a small air compressor for numbering head operation

The **COUNT™ FC114A Digital Creasing, Perfer and Numbering Machine** combines the technology of a creaser, numbering machine and perf/score machine into one great space saving machine with monster features. It's ideal for shops doing a multitude of jobs and who require automatic feeding with the air fed 457mm wide unit that can be easily operated by anyone in your shop.

In-line with KF-200 Knife Folder
