

FEATURES & BENEFITS

- Only automatic stand-alone knife folder available
- Automatic setup for 6 common folds; accommodates almost any fold (Bi-Fold, Tri-Fold, Z-Fold, Letter Fold, Gate Fold, Double Gate Fold, Double Parallel Fold, plus a custom option for almost any type of fold)
- Because it's a stand-alone machine, it's compatible with any existing creaser or multi-directional slitter/cutter/creaser
- Bottom vacuum paper feed with built-in register guide
- Paper feed stays aligned at all times with fixed, factory set registry guide
- Clear top lid provides visibility and easy internal access
- Innovative sensor at exit tray moves paper out of the way automatically, keeping the exit tray clear.
- A user-friendly touch screen for easy set up and control the machine

Knife Folder Chassis

Knife Folder Proximity Sensor

Bottom Vacuum Feed with Register Guide

The **COUNT™ KF-250** is ideal for anyone with an existing creasing machine or a multi-directional slitter/cutter/creaser. This machine is ideal for use in applications with heavier stock where standard buckle folders cannot get the job done. The KF-250 provides a clean fold without cracking or bending stocks up to 350 gsm.

The KF-250 allows you to keep the paper feed aligned at all times with the fixed, factory set registry guide. It features a bottom vacuum paper feed and a user-friendly touch screen control. Plus, the variable speed output conveyor features a unique proximity sensor that keeps the exit tray clear.
